

Slider M50 Flex

Slider M50 Flex is the coplanar system for doors weighing up to 50 kg which is designed to be cut to length. Thanks to the exclusive patented design of the Slider series, door movement and cushioned opening and closing are intuitive, smooth and silent. **Slider M50 Flex** also offers extreme flexibility: the length of mechanism can be adjusted to fit any cabinet by simply cutting the track as required.

Slider M50 Flex is the new addition to the coplanar range and, with just a small range of components, it confers the freedom to tailor the mechanism to suit any piece of furniture to perfection.

Technical information

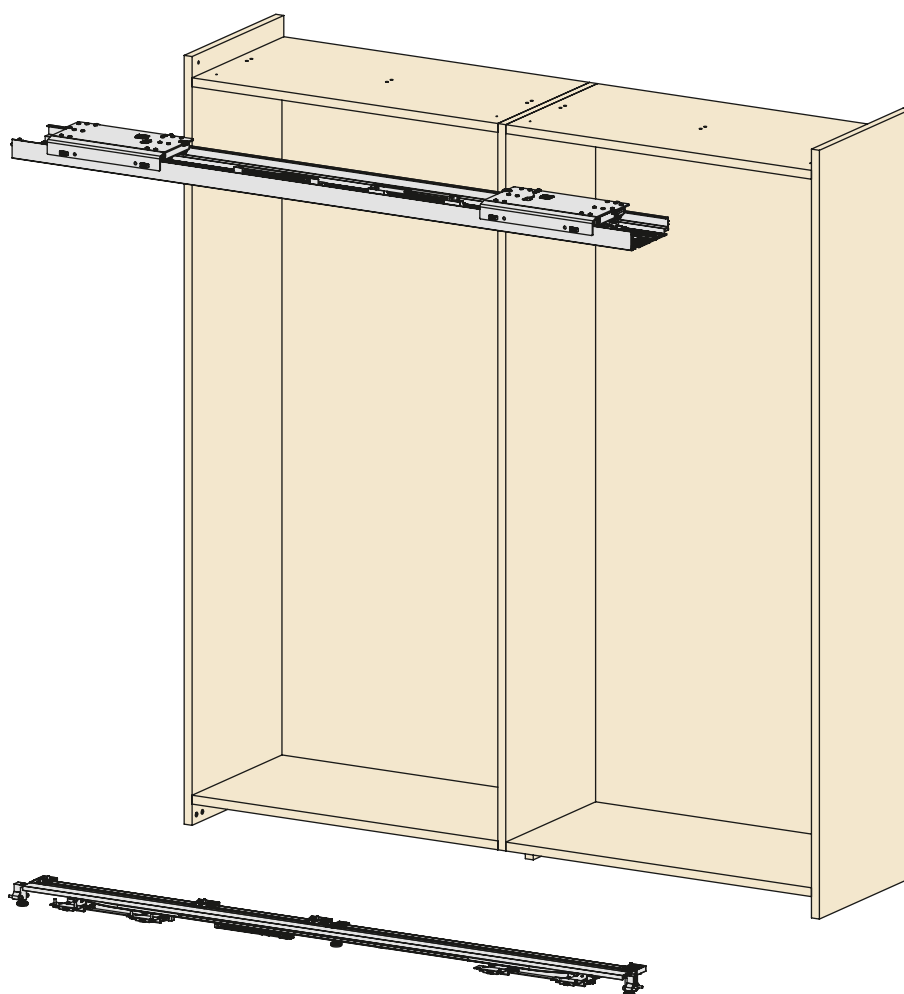

Coplanar two-door cushioned sliding system
with customisable track length
- capacity 50 kg per door.

Door dimensions:

- Maximum weight for each door 50 kg (evenly distributed).
